

WEBINAR: Pathways to demonstrate the BIOCOMEM technology for future bio-based membranes deployment in industry
November 24th – 10:00 – 12:30

10:00 Dr. Oana David (Tecnalia)
Short intro

10:10 Dr. Katrien Bernaerts (University of Maastricht)
PEBA polymer synthesis pathways to membrane processing

10:35 Dr. Sergey Shishatskiy (Heraeus)
Thin film composite membrane fabrication

11:00 Dr. Oana David (Tecnalia)
Hollow fiber membrane fabrication

11:25 Dr. Rouzbeh Ramezani (TU/e)
Membrane-based Process Design and Economics

11:50 M.Sc. Andrea Randon (TU/e)
Demonstration of Biocomem membranes at TRL 4 and 5

12:15 Discussion time
